TREE CARE SOLUTIONS

8 HP REAR TINE TILLERS

GET THE TILLING IN MOTION!

We have a variety of different tillers to choose from to help prepare your soil for your garden this Spring.

- Front Tine Tillers: Perfect for those smaller gardens and perfect for DIY gardeners. The tines are in front of the engine and drives the machine in and around flower beds.
- Rear Tine Tillers: Typically used by professionals and serious gardeners. The 8 HP Rear Tine Tillers are heavier and often have one or more forward gears, plus reverse. The rear tine tillers have wheels that are driven by the engine. Ideal for tilling areas that are 20' x 20' areas or larger.

WASHING WITH DUAL WORKMANSHIP!

Pressure Washing is a great way to keep sidewalks and walls looking fresh and clean. They're easy to transport and easy to use.

Quickly and efficiently cleans bricks, concrete, wood, and masonry. As well as lawn equipment, cars/boats, and patio furniture.

This particular unit as well as other more heavy duty units combine a rotary cleaner and wand pressure washer in the one machine, with the ease of swapping between them at the turn of a handle.

These units provide the most effective solutions for your project. Contact us today!
