ITEM(S) OF THE MONTH

AERATOR / DETHATCHER

Creates little mouths for the soil to receive the necessary ingredients.

Loosens the dead decomposing grass.

START SPREADING THE GOODS!

Fertilizing helps your yard get the nutrients it needs and enriches the soil. It's a process to fertilize, weed, and feed.

Use a Fertilizer Spreader to feed your newly aerated lawn the food it needs. We carry these ideal options for you, depending on the size and type of yard that you have :

- Manual Spreader for small yards.
- Motorized Spreader for medium to larger yards.
- Ride On Fertilizer Spreader.

The final step is to water that lawn!

BE PREPARED FOR ANY EMERGENCY!

The DFW area weather can fluctuate dramatically from day to day. We never know when a disaster is going to strike, but you can rely that Rental Stop is here for you when it does.

We have all the emergency solutions you need :

- Generators
- Submersible Pumps
- Wet / Dry Vacuums
- Floor Carpet Dryers
- Chainsaws
